

We recently got a new Christian radio station in Anchorage, K-LOVE, on 88.5 FM. This is a wonderful radio station that my whole family can enjoy without the raunchy jokes, lewd and vulgar DJs, and offensive commercials (ie beer, condom, etc.) found on other stations. Anchorage has plenty of FM stations and lots of competition in the radio industry. Please do not allow other LPFM stations to take priority over national or regional stations like K-LOVE. They provide a service not met by other stations. Removing them from the air would, in our opinion, adversely affect communities all over the country. Thank you for your time and attention to this matter.
